Different terms, fees or other loan amounts might result in a different Comparison Rate. Comparison rates for Variable Interest Only loans are based on an initial 5 year Interest only period. Comparison rates for Fixed Interest Only loans are based on an initial Interest Only period equal in length to the fixed period. During an interest only period, your interest only payments will not reduce your loan balance. This may mean you pay more interest over the life of the loan. Interest rates are on a per annum basis.
